

# Lonesome Rider

Words and Musik by Hannes Piprek

Em G  
In an old smoky bar in laredo  
D Em  
sat a man with the dreams of his bride  
Em G  
he spent long years fighting for his country  
D Em  
couldn't find any peace in his mind.  
Em G  
he comes home and he hopes to see his sweet bride  
D Em  
she'll be wistfull waiting 'till he comes  
Em G  
she promised him to wait for him forever  
D E  
now the day has come when he'll be comin' home

Refr:

C G  
(and I say) hey lonesome rider  
D Em  
ridin' through the night until the dawn  
C G  
hey lonesome rider  
D Em  
He's ridin' 'till he finds his home

Next morning he arrived in his old hometown  
he was happy and his heart was full of pride  
but the people turned their heads when he hailed them  
no one seem to know that they were once his friends.  
He was riding' to the house of his sweetheart,  
there was a man he never saw before  
and he looks in the eyes of that stranger  
and he heard the words the old man had to say

Refr:

You are a lone, lonesome rider  
you're riding through the night until the dawn  
you are a lone, lonesome rider  
riding till you find your home

He said that every one will meet his maker  
and that I will never see my girl again  
silently he handed me a letter  
and I read the words written by her hand  
"I was waiting six long years to see you darling  
all the times I spent with hoping you'll come home  
I promised you to wait for you forever  
But god in heaven now will take me home.

Refr:

So I'm a lone, lonesome rider  
I'm riding through the night until the dawn  
I am a lone, lonesome rider  
riding till I find my home
